## CITY TIME.

Office—408 Allen street, under Occidental Hotel.

This paper is kept on file at the U. S. District Court, at Tucson, Arizona, and at the U. S. District Court, at San Francisco, Cal., where contracts for advertising can be made at it.

## LOCAL NOTES.

Sandy Bob very justly wants the reward for his Indian maid.

J. E. Durkee and C. S. Abbott are expected to arrive in town to-day.

L. W. Blinn is registered at the Baldwin, San Francisco.

The T. M. & M. C. is building a tramway, up the hill, to the Girard mill, from the foot of Fifth street.

No. 41 came out victorious last night, in the raffle for the doll, at Sol. Israel's. The throw was 45.

County Treasurer Ritter advertises that he will redeem warrant No. 26 on the road fund.

Coyotes snarl and show their little fangs, but run away when danger approaches. If the shoe fits, jump aboard.

Number two of the WEEKLY EPITAPH is issued to-day. It is a splendid number. Mail a copy to your friends at a distance.

The Territorial Democratic Central Committee met in Tucson on Friday, and adjourned for a day to wait for other members.

Despite the snarlings of the coyote gang the EPITAPH sails serenely on its way, unmolested by the imbecile jabber of monkeys.

It will do no harm to once more draw the attention of our readers to the fact that the EPITAPH has the only job office in Tombstone.

In the name of humanity, which characterizes the dealings of MEN, we refrain from any adverse comments upon our frail but fair neighbors on Fifth street.

J. V. Vickers will ere long take his departure for Denver, to be in attendance upon the stockgrowers' convention as a delegate from this Association.

The Prescott Courier is a staunch supporter of Governor Sulick. The Courier is a good paper and consistent in its dealings with its political opponents. Success, Bro. Marion.

El Paso is said to be a very lively town. Real estate has risen rapidly. A new railroad is to be built to White Oaks, eighty miles distant, where immense coal beds have been opened.

The Herald says that a much less acreage of grain has been sown this year in the Salt River Valley and that the coming harvest will not yield more than enough for home consumption.

Frank Abbott and Tom Ewing returned yesterday from an extended tour through Mexico. They purchased whilst in Sonora a large band of horses, which they will sell to the people of Tombstone.

Prescott's new city officers elected Tuesday are: W. N. Kelly, Mayor; F. G. Brecht and R. H. Burmister, Councilmen; Alvord Aiken, Treasurer; James M. Dodson, Chief of Police; R. N. Fredricks, Assessor.

The Quijora Mining Company has found the recent strike a convenient excuse to shut down work. Everyone who can do so is leaving the city of the near future. It is said that a few men will be employed to run the 2,000-foot tunnel through the mountain, in search of the wonderful riches, of which so much has been said. Peerless stock was quoted at 15 cents in San Francisco yesterday.

Scene, corner of Allen and Seventh streets; time, 2 o'clock in the morning: Policeman—"I say, there, wake up. What are you wallowing in that filth for?" Something about four feet high, apparently alive but of very uncouth appearance, slowly crawls forth from the gutter and muttered in a coarse bass voice: "I (hic) am (hic) the CHAMPION (hic) of the (hic) TAXPAYERS." The moon in her benign mercy withholds her resplendent rays from the scene during the colloquy with this abject piece of humanity, if such it could be styled.

## NOGALES NOTES.

[From the Frontier.]

Nogales shipped 250 carloads of ore in 1885.

The imports into Nogales, for the quarter ending December 31, amounted to \$269,630.

Citizens of Nogales are to meet on the 11th inst., to consider the propriety of incorporating the town.

It is said that the Mexican government employs about 1,000 mounted customs inspectors along the United States boundary line.

Nogales is billed for a Spanish paper, to be called El Monitor Fronterizo, and to be published by Roberto Bernal, formerly of Hermosillo, and F. T. Davilla, of Tucson.

Arrangements have been made with the State of Sonora and the federal government of Mexico, whereby goods may be passed through Sonora without paying duties. This will cause a large number of extra men to be employed at Nogales and Guaymas.

## Song of the Stickers.

The following "Song of the Stickers," from the New York World, we respectfully dedicate to the Hon. Clark Churchill, of whom it may truly be said, in the language of the immortal Shakespeare: "He is the greatest sticker of them all!" We know the people ruled us out, but still we linger in;

To lose the jobs we kept so long would surely be a sin.

We know our precious places well, have got the points down fine,

And can't afford to die, you see, or even to resign;

For oh! you know,

We do not want to go.

Politicians, journalists and others, who have to do with public affairs, are divided by naturalists into two classes: The "ins," or those in power, otherwise known as corruptionists or robbers, and the "outs," or those who want to get into power. The latter, who are in the tadpole state of existence—not frog, but hoping to be—generally term themselves reformers, watch-dogs of the treasury or friends of the people, until they change their position, when they assume the names of their opponents.

A. K. Waddell, well and favorably known to the people of Tombstone, has purchased the business and material of Sandy Hitchcock. Mr. Waddell is undoubtedly one of the best carriage builders in Arizona, and parties desiring anything in his line will do well to make him a call. A first-class workman and pleasant and accommodating to customers.

The EPITAPH is quoted more extensively than any other paper published in the Territory. Whilst we are always delighted to supply our esteemed fellow sojourners in the land of sunshine and silver with interesting and authentic news, we think they might, once in a while, be able to afford us credit for what they appropriate.

The high moral record which Tombstone has enjoyed for so long was broken to-day by the arrest of three vagrants who, on being brought before Recorder Clum, was given the option of paying \$20 apiece or taking twenty-four days' active exercise. They preferred the latter alternative and are now engaged in picking rocks out of Fifth street.

The Democratic "wah hoeses" are getting ready for the fray. Already there are twelve aspirants for sheriff in the field, and all of the outside precincts yet to hear from. "Many are called, but few are chosen." In the hazy mists of the future these ambitious statesmen will receive a severe set-back to their budding ambition.

The total expenses of government of the State of Sonora for 1885 were only \$224,362, which includes \$40,000 for a State capital building and \$50,000 expended on county and municipal governments. There is a lesson here which might with advantage be studied on this side of the line.

The TOMBSTONE EPITAPH has changed hands, and J. O. Dunbar, an old, well-known writer, has taken charge. The EPITAPH has recorded the rise and progress of Tombstone, and is one of our most valued exchanges.—Albuquerque Journal.

The dance at the skating rink last night was quite a successful affair, being attended by a large number of Tombstone's fairest and accomplished young ladies. All such attempts to increase the sociability of our city are deserving of every encouragement.

General Pesquiere, ex-Governor of Sonora, died from a paralytic stroke at his Sonora ranch, near the frontier yesterday. The deceased was very wealthy, owning, amongst other property, 15,000 head of cattle.

Fred W. Smith will leave Tombstone to-morrow for a trip through Arizona and New Mexico in the interest of the EPITAPH. He will visit all the leading camps in both Territories. We bespeak for him a friendly reception.

## Sonora News.

Advices from Guaymas say the Yaquis from Guaymas and the ranches have left for the Yaqui river, it is supposed to join Cajeme, by his orders. The Indian campaign has not yet been commenced. A new State duty on imports has been imposed, the amount being \$3 per package. The merchants are consequently much dissatisfied. The State Legislature met on the 4th instant to raise funds for the campaign.

L. E. Allen, station agent at Torres, on the Sonora Railroad, has been arrested for embezzlement of the company's money. He is jailed at Guaymas. He is also charged with the loss of \$1,000 deposited with him.

## Hobbling the Ranchmen.

The following very sensible remarks are made by the New Mexico Stock-grower: "The custom of the cattle inspectors along the line of New Mexico and Arizona in exacting a toll of 20 cents a head on Arizona beef steers going by rail to the eastern markets is nothing else than deliberate robbery of the ranchmen. We cannot believe that the spirit or intention of the framers of the quarantine law, bad as it is in many of its features, is shown by the stand and deliver system now in vogue in inspecting cattle from the Arizona ranges, where stock is in absolute health the year through."

## Venus of Humor.

Fish, of Marine bank notoriety, has had his hair cut. When it grows again, his head will be protected with Auburn locks.

"Waiter! did you settle that coffee with an egg?"

"Yes, sorr; Oi did sorr. Oi put in two av'em, 'cause their foirst wan wuz bad, sorr."

"Clairette," said Flipskins to Miss Coshannigan, "what is your mother going to give us for supper?"

"I don't know, rare-bits, I guess."

"Zchah! Why don't she change her cook? I'm sick of hairs."

There is no daily paper published at Cambridge; the sewing circles retail the news without expense.

A fortune awaits the man who will invent a front door and a pair of stairs that wont creak and give a fellow away every time he comes home from the lodge and wants to get in without the whole family knowing what time it is.

A Missouri farmer who was on trial a few days ago for assault and battery on his daughter, declared that he had great provocation. When asked to state particulars, he replied:

"She was a-keeping company with Jim Longley."

"But, isn't Jim all right?" asked the lawyer.

"Why, his character may be all right, but—"

"But what?"

"We'll, the hull thing is just this: Sarah is cross-eyed, as you can see for yourself, and Jim is the most bow-legged man in the State. I tried to make Sarah understand that every one of her children would be lantern-jawed, lopsided, hump-backed idiots, and a disgrace to old Missouri, and she got up and called me a liar and threatened to burn my three haystacks. If Sarah can't realize the eternal fitness of things she must take the consequences."

## A Card.
